## FARMERS! FARMERS!!

This is YOUR Election.

eciprocity is YOUR Demand.

You need a bigger market and better prices.

Don't be misled by side issues and false cries.

There is but one real question to decide.

You insist on a square deal.

The opportunity is knocking at your door.

It may not knock again if not seized now.

Get to the Poll and cast your vote.

Vote for your own greater prosperity.

A vote at home is no good.

Bring your neighbor with you.

## VOTE! VOTE! VOTE!

### CLARESHOLM MAY SECURE NATURAL GAS SUPPLY

The Canadian Western Natural Gas Co., Ltd., has recently acquired the gas-wells and other assets of the Prairie Fuel Gas Co., Ltd., at Bow Island where such great quantities of natural gas have recently been discovered. The estimated flow from the three wells already sunk in this territory is 30,000,000 feet for every 24 hours, with a pressure of over 800 pounds per square inch. The quantity is amply sufficient to serve the City of Calgary and the whole district from Bow Island on the Crow's Nest Branch of the C.P.R. via Macleod, to Calgary. The same company have acquired the franchise of the Calgary Natural Gas Co., Ltd., for the City of Calgary and are now arranging to pipe the gas from Bow Island to Calgary, a distance of 120 miles.

This company, of whom the General Manager is Mr. Eugene Coste, has been investigating conditions in the towns along the C. & E. between Calgary and Macleod and along the Crow's Nest Pass Branch from Macleod to Bow Island and if conditions warrant, the company is prepared, instead of laying its pipe-line direct from Bow Island to Calgary, to follow along these above-mentioned lines and supply the towns along the line with natural gas.

The Clareholm Council has been approached in this matter and is taking the necessary steps to insure that our town shall receive consideration. The Council considered the need of immediate action and Mr. Coste was asked to meet the Council at any time or day he might name this week. A reply was returned immediately from the solicitors of the Co. and an appointment will be made for next week.

The Company, it is understood, will offer to the town the same contract which was entered into with Calgary and Lethbridge. It will doubtless ask for a 20-year franchise, with the option to the town of purchasing at the end of this period its gas supply and the distributing plant from the Co. and operating the gas supply as a municipal undertaking. The price of laying pipe-lines through the streets of the town and of supplying the residents with natural gas for heating and power purposes will be asked for.

The probable rates offered to the public would be, on the Calgary contract basis, 20c per thousand feet for power purposes and 15c per thousand feet for domestic purposes. There is no room to doubt that the entrance of

such a concern into Clareholm would give this town an upward lift that must not be lost to us. The Company will, in all likelihood, ask that a law be submitted to the people at the event of the undertaking not coming to town, they would guarantee to pay the costs of such proceedings.

As the citizens, generally, prefer electricity to gas for illuminating purposes, the town's lighting plant would not suffer and, on the other hand, the use of gas as fuel to operate our water and light plant would mean a very great saving in the cost of operating. With the threatened scarcity in fuel looming up darkly before this town the securing of a cheaper and more dependable source of supply should inspire the Council to do everything in its power to secure the gas project for Clareholm.

### ANOTHER COMPETITION

By the Clareholm Choral Society

At the close of the musical season the Choral Society found that after paying all expenses of the season, which were necessarily very heavy, and expending forty dollars in a competition which enabled eight prize winners to hear the Sheffield Choir in Calgary, there is still a balance on hand of fifty dollars. The officers of the society have decided to use this money in a competition offering eight more prizes, four to be for vocal music and four for piano. Madame Alice Nielson, soprano, and Nordica, the great contralto, and Kubelik, pianist, have world famed artists, will visit Calgary between now and Christmas and the prize winners may choose which of these they would prefer to hear. The prize winners in the last competition cannot compete in the same class as before. The competition will be held on Friday evening October 6th and there must be at least two competitors in each class or a prize in that class cannot be awarded. This gives three weeks time for any special preparation and it is hoped that there will be quite a much interest taken in this as in the last competition.

This gives three weeks time for any special preparation and it is hoped that there will be quite a much interest taken in this as in the last competition held in April, which was most creditable to the talent of the town and gratifying to the officers on the society in their efforts to develop the musical life. If any further in-

### Clareholm Art Studio.

Mr. J. L. Edlund wishes to announce that for a few weeks he will be out in the District taking Photos of Farms and Buildings and will not be at his Studio on Monday, Tuesday, Wednesday and Thursday of each week. The Studio will, however, be open for orders, developing and printing for amateurs, etc. Parties wishing him to call and take views for them will please call or write him and make appointments.

formation is desired Mrs. Steeves will be pleased to give it and entries, for which there is no fee, may be made to the secretary of the society, Mrs. J. P. Miller.

Off Agin! On Agin!

A regular meeting of the Council was held last Thursday evening. In view of the fact that some land which would be caused by the discontinue-

ance of the services of the water cut the question was reconsidered. The extensions of the water service lines cannot be made to reach all water users rapidly enough. The town does not wish to retain the water-cut business. It is desired by the Council to interest some private persons to take over the business. In the meantime the council will secure the water delivery and a transfer can be made to private parties.

## To The Electors of The Federal Riding of Macleod:

### GENTLEMEN

Having accepted nomination as the Liberal Standard Bearer in the forthcoming election and being an enthusiastic believer in the benefits to be derived from the Reciprocity pact with the United States I desire to place before you a few reasons why the cause I support should receive your endorsement at the Polls.

In December 1910 the farmers of Canada sent a large deputation to Ottawa to lay before the Government their demands relative to remedial measures for the benefit of the farming interests, and a reciprocal agreement with the United States was one of the most important measures suggested.

About the same time the United States Government sent representatives to Ottawa and announced that they were prepared to enter into negotiations with a view to arrange a reciprocal trade agreement with the result that the Reciprocity Pact now before the people of Canada was reached and the approaching election is a Referendum as to whether that Agreement shall or shall not become law.

It is a well known fact that farm products, wheat, barley, oats, hay, flax, cattle and hogs command much better prices in the United States markets than are obtainable in Canada and with the duty removed you will have free access to the markets of the south and reap the advantage of higher prices for your products.

Access, duty free, to a new market of ninety million people is what this reciprocal trade arrangement means and it is for the farmer to say whether he will accept or decline the offer put before him by the Government.

The Reciprocity Agreement also provides for a considerable reduction on the duty of agricultural implements and this will enable the farmer to save money on his purchases of the many necessary farm implements.

As a member of the United Farmers Association of Alberta I endorse the platform of that organization and if sent to Ottawa as your representative I shall do everything in my power to bring about a further substantial reduction of the duty on agricultural implements at the earliest possible date.

The farmers of Canada through the deputation sent to Ottawa asked for reciprocity and those of you who follow the discussions in the House know that but for the opposition of the Conservative party, Reciprocity would now be in force and we should be getting the benefit. If you vote for the Liberal Party and return that Party to power you will have the Agreement ratified just as soon as Parliament can be re-assembled.

As has been already pointed out the Conservative Party is opposed to this measure and by supporting their Candidate you are assisting to elect that Party to power and therefore assisting to destroy the Reciprocal agreement.

The powerful industrial and financial interests of the East are opposed to the agreement and if the Conservatives get into power these interests will dictate the Policy of that Party and Tariff reduction will be impossible.

Reciprocity also means much to the consumers of Canada and is worthy of their support. The fact that many food stuffs can be imported free of duty from the United States should appeal to the consumers of this country who are anxious to see the cost of living reduced.

The Reciprocal Agreement will give a tremendous stimulus to the development of the large coal areas lying along the mountains. The removal of the duty on Coke will enable Alberta Coke to compete successfully with Pennsylvania Coke in the markets of the great Smelting centres of the United States and the result will be a largely increased output by our coal companies. New coal mining Towns will spring up in these coal fields and new home markets for farm products.

Railways will be induced to come in from the South affording us better transportation facilities.

One of the arguments advanced by the Conservative party against the Pact is that better trade relations with the United States will tend to make us disloyal to Britain and create a desire for political Union with the United States.

But at the present time Canada does a much larger volume of business annually with the United States than she does with Great Britain yet Canadians have not been termed disloyal. A prosperous people are always a Loyal People and if we double our business with the United States that will not weaken our loyalty to Great Britain.

The Liberal Party have in the past drawn together the bonds of Empire by giving British manufacturers a preference in Canada and will increase that preference. The Conservative Party opposed the British Preference almost as bitterly as they now oppose Reciprocity, yet they now talk loudly of their Loyalty to Britain.

Reciprocity with the United States will rapidly enhance the value of our lands. The Canadian Pacific Railway Company advertising in Seattle state that the passing of the Pact will increase the value of Western Canada Lands one hundred per cent. This means wealth to every Homesteader.

In conclusion I would say that I am not without parliamentary experience and I would point to my record in the Provincial Legislature.

If honoured with your support at the Polls on September 21st I shall do everything in my power to further the interests of the electors of Macleod Constituency.

If sent to represent you at Ottawa I shall stand for immediate construction of Railways for which Charters are granted in the Federal House as I have done in the Provincial House.

Be sure to cast your vote on September 21st. A vote at home is useless. Vote for the Liberal Party and Reciprocity.

I have the honour to be, Gentlemen, Your obedient Servant,

Sept. 4th, 1911.

D. WARNOCK.

## Clareholm Review.

ESTABLISHED 1904.

Printed and published weekly

at Clareholm, Alta.

15.00 per year. Single copies 5c.  
H. DUNCAN, EDITOR.

The impertinence of a party in minority who had had eighteen years of misgovernment for their record, arrogantly offering to allow the party elected by the people with a majority of nearly half a hundred, to pass necessary estimates on condition that the respondent party should relinquish their legislative programme for the convenience of the opposition, has never been so plainly demonstrated to us as by the boastful utterances of John Herron here last Tuesday evening. What, in the name of common sense, is the use of a popular vote if a disorganized minority can block legislation by this means. It is the Lords of England suicide once over again. We surely must have some obscure provisions in our government at Ottawa that the people's wishes be put into effect by the dominant party without obstruction.

To hear Mr. Herron talk about his policy and Mr. Borden's policy and the Farmers' policy in such matters as terminal elevators grain inspection, etc., one would think the Liberal government was opposed on all these important matters. Why did John Herron not tell you that the Grain Bill which would have been passed by this time had it not been for Tory obstructions, makes temporary provision for many of these things? Why did not Mr. Herron say that Sir Wilfrid Laurier assured the Farmers' Delegation on Dec. 16th 1910 that as the matter of control and operation of terminal elevators was a matter that involved not merely the elevators at Fort William and Port Arthur, but the whole elevator system and was closely interwoven with the transportation problem, the whole matter was being carefully considered and that a measure that would go much farther than even the demands of the delegation would be taken up as a government measure at a very early date?

When Mr. Herron published his manifesto and made his unaided speech here last Tuesday he knew that negotiations were in progress looking to the allotment of parts of the Crown domain to the western Provinces for revenue-producing purposes; he knew long-ago that a large part of the Hudson Bay Railway has already been put under contract as a Government work; he knew that a change has been made in the method of safeguarding the interest of the grain growers in relation to terminal elevators; he does not make clear what kind of "encouragement" should be given to the chilled meat industry, or what kind of assistance should be given toward the improvement of public highways, but unfairly implies that nothing has so far been done; no one would know from his "rural mail delivery" plank that many free delivery routes have already been established, and that many more are under consideration; the proposal to extend civil service reform implies a grudging admission that the "reform" law has been begun, and that it is in the right direction.

Mr. Herron says because the policy of 20 years has been reversed the government should not have attempted to pass reciprocal trade legislation without going to the people for a fresh mandate. In 1892 Sir John Macdonald sent A. T. Galt and W. F. Howland to secure an extension of reciprocity treaty of 1851. In 1898, the government passed a resolution offering reciprocity. In 1899, Sir John Rose, finance minister of Dominion government went to Washington

asking for reciprocity but was refused. In 1870 tariff was amended but standing offer to U.S. was not changed. In 1871 Sir John Macdonald added himself sought to induce the U.S. to reopen the matter of reciprocal trade. In 1874 George Brown's treaty was killed in the U.S. senate. In 1879 standing offer incorporated in National Policy. In 1888 Sir Charles Tupper went to Washington to make offer in person and as a bait offered to open Canadian waters to American fishers. The year 1891 Sir Charles Tupper, Sir John Thompson and Hon. G. E. Foster went twice to Washington making an unrestricted offer of reciprocity. In 1893 Sir John Thompson announced he had let the U.S. know we wanted reciprocal trade. In 1896 unofficial overtures by Liberal government. In 1898 the failure of the joint High Commission to arrange a treaty occurred. This does not look like much change if the governments of the day represented the sentiment of the people, does it?

It is a pity that Mr. Turpin's question and explanation, which bothered Mr. John Herron somewhat at Tuesday night meeting, could not have been better heard and understood. Mr. Turpin wanted to explain to Mr. Herron that the Navy Bill was constructed so as to make it in accord with the Militia Bill, passed by Sir John A. Macdonald's government and fathered by Sir George Etienne Cartier, which established the principle that the militia should be for the defence of Canada and Canada only, an act approved by the Minister of War in England, in fact, it was said at the time, that the bill had been drafted by the War-office in England, and was adopted in part by the English government for themselves. Its principles remain to this day and conscription is not known in the Empire. It was absolutely imperative that the Navy Bill should embody the same principles. This provides that Parliament must assemble in fifteen days from the declaration of war and, as Canada is a component part of the Empire, if Great Britain is at war Canada is at war also. This was the answer Sir Wilfrid Laurier made to R. L. Borden and Mr. Turpin wanted to explain this point as Mr. Herron was wilfully and disingenuously misrepresenting the facts. Suppose that war is declared against England, Canada becomes automatically at war also. Parliament assembles at once. The cabinet, as in the case of the Militia, or in any other case for that matter, for the Governor-General acts only on the cabinet's advice and the Governor-General is the King's representative and the King is the head of army and navy

the cabinet, we repeat, issues orders to each branch of the service. The cases cited by Mr. Herron were ridiculous in the extreme. Further if Canada had made a money contribution to the British navy she would not have had the vessel, so provided for, at her command in times of peace to police her water borders.

Did John Herron want to insult the intelligence of his audience or is it possible that with his years of experience at Ottawa he did not know the truth, when he accounted for one of his subsidies on reciprocity by saying the discovery that to twelve nations other than U.S. our Canadian markets were to be opened had changed his mind on reciprocity? The gentleman knew as well as some of his audience knew, that Bolivia sells us nothing but some dry goods, Columbia, a few dollars worth of cabinet woods, Austria-Hungary, silk, some hulled wheat and cheap toys; Japan, silk and cheap toys; Norway, preserved fish; Spain, tropical dried fruits, nuts and wine; Switzerland, lace and silk goods; Yonovis, coffee; also that Russia has sold us some hides and no natural products covered by reciprocity; neither has Sweden; that Denmark has the greatest market to be pulled for for vegetable and dairy products in the City of London at her very door and that great city swallows up all and many times more of the eggs and bacon and cheese that Denmark can produce.

But he says Argentina—let us take the Argentine Republic. This country sold us last year over \$100,000 worth of—what? Wool, which is already free and has been for years—hides and cocoa. Does that scare anyone? He said that for 1 1/2c, a bushel Argentine could land her wheat at Halifax. This is very close to the truth. Again 16 or 17 cents a bushel is charged to get our western grain to Fort William. This may be near the figure. But when John Herron puts these two things together as parallels and endeavors to deceive his audience here he insults Intelligence ones more. The Argentine Republic is as near to the British market as she is to Halifax. The rate of shipment is less to England because the Argentine buys largely in England and the steamer that carries grain to England carries manufactures back to the Argentine which is not a manufacturing country. Again we have been competing with the Argentine wheat in Great Britain for many years. Would we not have a more decided advantage if we compete with her in our own home market? Again John Herron would have us contrast the cost of getting our grain from the inland wheat field to the ocean shipping port of our country, a rail route largely, with the cost of shipping grain from their shipping port to Halifax, a water route. To be fair add inland rail land from elevator to seaboard to the rate he quotes or to the rate he contrasts the cost of Canadian grain, Halifax to Liverpool, with the cost of Argentine grain—Buenos Aires to Halifax.

Thos. Gillespie of Granum, was in town last Thursday.

Richard Austin of Meadow Creek, was in town Monday.

J. M. Workman was a Calgary visitor last Saturday.

P. McElroy of Nanton, drove Mr. Paulson through this district last Friday.

Mr. and Mrs. Jas. McKinney, and son returned last week from Kelowna, B. C., where they have been for some weeks.

Mrs. F. T. Delbridge has announced her Fall Millinery Opening dates, Friday and Saturday September 14th and 16th.

A. N. Mount of Pincher Creek, president of the Macleod District Liberal Association, was in town last Saturday.

Joseph R. Miller of Toronto who is so largely interested in land through Western Canada was in town last Thursday.

Carl Paulson of Ponoka, representing the provincial government made a trip, Friday, through this district to make estimates of the losses from hail.

The machinery has been installed in our new creamery and the building looks very business-like with its equipment of butter-making appliances.

John Heron addressed a meeting at Elton on Tuesday afternoon. On the home trip the auto broke down and Thomas Guy was speeded to the rescue.

Mrs. F. W. Elliott and sister Miss Holtzmann left for England last week. Mrs. Elliott will return about Xmas; her sister will remain in England.

R. Ryland who lives some twelve miles from Granum has returned from a prospecting trip to the Macleod river. It is understood he met with some measure of success in his search.

Harry Grey of Spokane, was here with three gags this week. He was showing a large mule that weighed over a ton. Sam Lee purchased a fine stallion from the lot. These were the finest jacks that have been seen here.

W. A. Lyndon, postmaster at Lyndon, was in town Tuesday. He appeared on the platform at the John Heron meeting on Tuesday night. Perhaps W. A. could have talked some to if he and Frank Murray had been given a chance. As it was Jas. McKinney, John Heron and the mounted field the floor.

Peter Everett, who has been conversing at the ranch of C. F. A. Leeks for the last two months has made such rapid progress in regaining health that he has undertaken the position of fireman at the Power House. Talk about your California or ocean voyages for convalescents! Alberta has then eclipsed in the health-restoring business.

The little, winged boy has been at work again, and the bachelor rules will be once more broken into before this paper gets to its readers next week. A local business man leaves on Saturday and before we see his face again he will probably have joined the Benedictines. This explains the preparation for occupancy that has been going on in a vacant house this week.

Mr. Galbraith, teacher in the Lar sen school, has resigned, and will resume studies in the medical school of Toronto University. Mr. Galbraith's departure will be much regretted. He's a jolly good fellow and a first class athlete, playing soccer with Toronto Varsity. He was a valued addition to the Claresholm club. He is an excellent hockey player, and is catcher on the Clear Lake baseball nine. - News Telegram.

At 3 Rosedale road, the residence of Mrs. Donald Gann, aunt of the bride, on Wednesday morning, Sept. 10th, the marriage of Miss Jeanette Catherine Gann and Rev. Peter Henderson of Armstrong, B.C., took place. Rev. E. W. Mackay of St. Paul's Church, Seattle, B.C., was assisted in the ceremony by Rev. Dr. Neil of Westminster Church, Toronto. The bride, was given away by her father, Mr. Alexander Gann, of Jenesville, Minn. The best man was Mr. Thomas McCall, Hutchinson of Montreal, a life-long friend of the groom. Mr. and Mrs. Henderson left for Owen Sound and points west on their way to their future home in Armstrong, B. C. - Toronto Globe.

Chas. Egnor and wife of Carman-gay were Claresholm visitors Sunday.

A carload of furniture arrived for our local furniture dealers this week.

Fred Hosell and J. A. Holden were in Calgary on business on Tuesday.

Chas. F. Groce returned from Spokane last Tuesday accompanied by his wife.

M. C. Erwin of Lyndon was in town Sunday. No damage from frost or snow is reported from his district.

The Stewart Ranch, C. Booth and J. R. Watt are sending horses to the Nanton and Stavelly Fairs this week.

Robert Nimmons, of Lethbridge, the license inspector for this district, paid an official visit, Wednesday to Claresholm.

F. C. Chase of Crown Lumber Co., Calgary, was here on business last Tuesday. Mrs. Chase was with him on his trip.

C. S. Hotchkiss has returned from Toronto, where he was in charge of the Alberta Government Exhibit at the exhibition.

Gavin Jack and Mrs. Jack of Calgary were here on Monday. Eight carloads of cattle were purchased and shipped from here by Mr. Jack.

Frank Nugent of Vancouver, Wash. arrived here yesterday to have a look around this place where he was once a well-known figure. His old friends are pleased to see him.

E. C. Jenkins and his son of Aurora, Ill., are sizing up the crops on their lands here this week. They are immensely pleased with the size and quality of this year's yield.

Every body should drop in to Mrs. Debridge's and see the new Fall ideas in Hats. It gives one a better comprehension of the prevailing styles for Fall and Winter.

Mrs. G. B. Garra of Sloan City, B. C., and Mrs. Post, Maple Creek, Sask., the sister and mother of Mrs. (Insp.) Tucker, are guests at the home of Inspector and Mrs. Tucker this week.

Erie Galde was in town Tuesday. He sports a crew cut in his first busy cutting the grain. The estimates for twine were away off and many farmers are finding their supplies of twine running low.

Elston returns will be obtained by special wire and ballistics at the I.O.O.F. Hall on Thursday night next. The hall has been secured so that the citizens may hear in comfort the results of the voting.

Mrs. W. T. Gedeman and children returned last Friday from a two months visit with friends in Winnipeg and Manitoba points. Lemoine, their little son, was seriously ill, having to undergo an operation in Winnipeg but is recovering.

The Provincial Gazette of Aug. 13th just issued contains a notice of the sanction of the change of name of the Claresholm Turf Association, Limited, to the Claresholm Park Association, Limited, on August 12th 1911.

In error, last week we announced the death of an infant, the child of Mr. and Mrs. R. K. Peck. The child of Mrs. Duffy, a sister of Mrs. Peck, from Brumby, Alta., aged nine months was buried from the home of R. K. Peck and the mistake arose in the name. We regret having made the error.

The stock and fixtures of the restaurant lately conducted by Hip Lung was sold by public auction last Sunday afternoon. The prices obtained for the various articles sold was very satisfactory and the rapidity with which the goods were disposed of reflects credit on Pat Murphy who had the sale in hand.

On Saturday afternoon, there will be a new meeting to discuss how best the fortunate farmers and citizens of this town and district can share their plenty with those who were so unfortunate as to lose their crops from hail a month ago. Plans will be presented for the consideration of the meeting and something done at once. Every one should attend this meeting and go with energy into this movement.

### NOTICE

The Board of Trade, which has been taking a few weeks holidays, will resume its regular work. The next meeting will be held on Tuesday, October 3rd. A full attendance of the members is urgently requested. Gas Project, Hail Insurance and other timely topics will be up for discussion.

**FARMERS List With Us at Once****Local Address Box 39 Claresholm, Alta.****JOHN HERRON****Heard Patiently**

An audience that comfortably filled the commodious LODGE Hall assembled Tuesday evening to hear the Conservative candidate explain his attitude on the great questions of the campaign. Not a few ladies graced the occasion with their presence. Jas. McKinney was the chairman and afforded an opportunity for any speakers in opposition or otherwise, to take their seats on the platform and air their views in twenty minute speeches. A representative of the Socialist candidate who is announced, will be Edward Fulcher of Brandon, Man., addressed the meeting for a half-hour. He contended that reciprocity is but a trifle and deserves no prominent place in the consideration of the people and he was neither for nor against. He referred to cats and hays as articles of human diet till he had some of the audience laughing and whinnying like horses. He urged the people not to vote for any old thing but to study, read, etc. etc. without end, Amen.

The real speaker of the evening was introduced and John Herron spoke for a considerable length of time in the interests of his own candidature. Referring to the immense size of his constituency, he had found it impossible to become at all intimately acquainted with his constituents and had very little opportunity to learn their wants. He charged the government of Sir Wilfrid Laurier with a lack of consideration for the farmers of the country in bringing an election at this time when R. L. Borden had made the proposition to Sir Wilfrid last spring that if the government would hold the reciprocity consideration over till the census had been taken and redistribution affected, he would allow the government to pass the estimate and other necessary routine business. Mr. Herron considered that when it came to reversing the policy that had been followed for 30 years, the government should allow the people to decide the reciprocity issue. The speaker had often voted in opposition to his party and the Liberals

having been in a minority of seven and sometimes eleven and even of thirteen. He repeatedly complained that the argument was being used against him that because he had not made a speech in favor of reciprocity on the floor of the house he was not worthy of the people's confidence. He stated that the effects of a reciprocity agreement were unknown last January and that when he first looked into it he thought it to be a good thing. But when the operation of the favored nation treaties was discussed he altered his opinions. He then wrote to the C.P.A. organizations, boards of trade, and private individuals to get their opinions on the agreement and received replies almost unanimously from all of these contending urging him not to oppose reciprocity. He then decided to do so but of late he has found that the feeling of the people is changing. He complained again that he had not got a turn to speak in favor of reciprocity and there were over a hundred fellow sufferers whose names were down for speeches but who have not a chance. On the 16th of July at the nominating convention he announced his stand. He did not think it was necessary to do so before then. He dwelt for a time on the favored nation treaties and selected Argentina as a nation importing about the same as ourselves and able to lay down in Halifax their wheat, so he said, at 25 cents whereas we cannot for 16 or 17 cents by our ship from Fort William. He also cited Denmark sending butter to Montreal and China supplying the C.P.R. with eggs. But in spite of all, the disadvantages of the proposed agreement he thought overbalanced the disadvantages. Our coal imports would be helped by the market to the west, greater development of the coal mines would arise and railway building would be encouraged. With more railways, competition would lower rates, people would pour into the country and the value of land would be enhanced. Our oats and barley would find a market in the southern

country and the importation of fruit from the U.S. would lower its cost to Alberta consumers. About five stock Mr. Herron was not as sure but could not see how this trade could be hurt by reciprocity. He praised the provisions made by New Zealand for the chilled meat industry. But the redeeming feature of the whole thing is that the treaty can be abrogated, so Mr. Herron says, "without a minute's notice", just by drawing a line with a pen through the treaty". But the speaker made the observation that perhaps the U.S. would hold a club and not allow us Mr. Herron thought the government had decided to get a snap verdict and he was very pessimistic as to the chances of the opposition. But says he, "reciprocity is not the biggest thing in this campaign"—the record of the government deserved censure. The U.P.A. are of fairly average intelligence and they are the men who ought to know. When they met Sir Wilfrid on his Western tour last year they did not mention reciprocity but talked terminal elevators, chilled meat, free agricultural implements, Hudson Bay Ry. The speaker says that Sir Wilfrid "has not cut one". He devoted a considerable time to a criticism of the elevator importers and urged that the Conservative leader favored the system of allowing no employees of the elevator to buy grain. He was very "fervid" regarding the chilled meat business and urged a system of government ownership and operation which would not be a hindrance to the Canadian wool and woolen goods industry. He said that the woolen goods industry would build Hudson Bay Ry. at once but he doubted if home field contractors are let. The speaker took considerable credit for securing Mr. McLean (Patagonia in Prairie) regarding the milk reduction on agricultural implements. He, Mr. Herron, was always in favor of free implements. The speaker would not protest industries even long before they become exporting industries. He said that when free trade was offered it should have been accepted and read some portions of selected extracts to prove that U.S. offered full and unrestricted trade to Canada in this agreement discussion. He charged the government with having lowered the duty on some implements but increasing the value at the same time and gave Hon. Wm. Patterson a rap on the biscuits

He censured the Laurier administration for having refused a full free trade offer on manufactured articles and characterized this bargain as a bad one for this reason.

Mr. Herron claimed the government was unfair in the matter of the public domain and said that if it were true which he the speaker, could not credit, that the government were giving the prairie provinces their lands the government should go further and recompense the province for stamperage dues, coal royalties, sale of lands, etc. in full.

The government navy policy was severely criticized by Mr. Herron and the usual statements made which called for a protest from Mr. Turpin. Handicapped as this gentleman was by his position on the floor he with out a doubt was not answered by the candidate and Mr. Herron showed to considerable disadvantage when up against redistribution. Mr. Turpin's questions were without doubt pertinent and the speaker evaded the direct answer with a very poor response. The closing part of Mr. John Herron's address was very disappointing. He bewailed having no newspaper support, no speakers' assistance from his party, no party support and asserted his sacrifice for independence had cost him many party friends. He landed a two party system but said he asked support for his independence. It is to be regretted that the speech of Mr. Herron could not be reported with the many weaknesses of the closing appeal eliminated. The gathering gave him cheers for the speaker, and the position of the past few years called for. The hearing attended Mr. Herron was most fair and our Claresholm people are to be complimented on their patience and courtesy.

**It is Not in the Blood**

Malice Taken Internally Cannot Cure Eczema. It is Caused by Genies.

Eczema cannot be overcome by ordinary treatment and the old-fashioned way of doing the system with drugs. Eczema is caused by a parasitic germ that bores into the skin. It is generally a contagious disease. Until the

parasite is completely removed and destroyed, eczema cannot be cured. Fully one-third of skin diseases are in the form of eczema.

We so thoroughly believe that Revall Eczema Ointment will overcome eczema and allied skin ailments, that we unhesitatingly promise to promptly return the money paid for it should it in any way be unsatisfactory to the user.

Because of its remarkable cleansing, antiseptic, germicidal, soothing and healing influence, Revall Eczema Ointment has a very pronounced value in the treatment of skin diseases, especially where the form of ailment is of the chronic, aggravating sort. We highly recommend it for the dry, scaly form of the weeping type, when there is a constant flow of ill-smelling excretion.

Revall Eczema Ointment is very prompt in relieving pimples, blotches, skin discolorations, ring worm, acne, nettle rash, tetter, itches, ulcers, insect bites, and for healing sores and wounds. It is a pleasant smelling, grayish-white ointment, and is very cheaply priced. Two sizes, 50c. and \$1.00. Sold only at our store: The Revall Store. O. L. Reincke.

**The Weekly Payment Plan**

The weekly payment plan affords wage-earners an easy and sure way of making provision for the time when their earning powers have ceased. For example, if a man of present age 40 years were to deposit with the Canadian Government \$1 a week until he was 65 for the purpose of having a Canadian Government Annuity, he would receive \$20 a year for the remainder of his days. And if he died before he was 65, what he had paid in accumulated at 3 per cent compound interest would be refunded to his heirs. Full particulars concerning the scheme may be had by any one over the age of five years if he so wish apply to the Superintendent of Canadian Government Annuities, Ottawa. State age last birthday, the age at which Annuity is desired to begin, and the amount which you want to pay each week, and the Superintendent will tell you what amount of Annuity the payments will buy. Write to night.

**Meadow Creek District**

Mrs. Watson returned home last week. Although delayed for a few days by the rainy weather, she arrived home safely without harm either to herself or infant daughter.

Services were well attended Sunday at the Meadow Creek apartment.

The heavy rain of last week delayed the ripening of the grain in this vicinity.

Rev. W. J. Mark leaves for Vancouver, B.C., the 26th of September to attend college this winter. We all join in wishing him the best of success.

Travis Bagley left England for home last Saturday.

Harry Chabot, Meadow Creek, has received a telegram telling of his mother's illness.

**Favored Nation Treaties**

It is not apprehended that there is any competition now from these countries, but it is possible that in the course of time we may come into competition with them. This question came before the Imperial Conference in May and June last. I drew attention to those old treaties and showed that they might be an obstacle some day to us, and then expressed some doubts as to whether their earning powers have ceased. For example, if a man of present age 40 years were to deposit with the Canadian Government \$1 a week until he was 65 for the purpose of having a Canadian Government Annuity, he would receive \$20 a year for the remainder of his days. And if he died before he was 65, what he had paid in accumulated at 3 per cent compound interest would be refunded to his heirs. Full particulars concerning the scheme may be had by any one over the age of five years if he so wish apply to the Superintendent of Canadian Government Annuities, Ottawa. State age last birthday, the age at which Annuity is desired to begin, and the amount which you want to pay each week, and the Superintendent will tell you what amount of Annuity the payments will buy. Write to night.

This was approved by all the members of the Conference, and passed unanimously. If we have to complain at any time of undue competition, the British Government, upon our complaint, is ready to enter into negotiations in order to remove us from the operations of these treaties. (Extracts from Sir Wilfrid Laurier's speech at Simcoe, Ont., Aug. 14th, 1911.)
